

What is the Women in the Outdoors program all about?

We are at a critical juncture for the future of wildlife habitat conservation and the preservation of our hunting heritage. Because hunters pay for wildlife conservation, we must work to recruit hunters and provide more places to hunt. NWTF's 10-year Save the Habitat. Save the Hunt. initiative, will tackle these difficult challenges. By introducing or reintroducing 1.5 million people to hunting, NWTF Hunting Heritage Programs will help Save the Hunt!

Each year NWTF chapters across the U.S. offer people opportunities to explore the outdoors through local hands-on events and hunts. Events are designed to pass on the traditions of safe, ethical hunting and teach conservation principles. We know them as Hunting Heritage Events — Women in the Outdoors, JAKES for youth and Wheelin' Sportsmen for people with disabilities.

We offer many activities to keep you occupied, or you may choose to just have some down time. The weekend includes shopping via fundraising, silent auction items, raffles and a live auction!

SPACE IS LIMITED, REGISTER EARLY!**

CLASS DESCRIPTIONS

IMPACT: E = EASY • M = MODERATE • S = STRENUOUS

5-Stand Sporting Clays – Learn the fundamentals of 5-stand sporting clays shooting and experience the thrill of hitting clay targets. Along with basic range safety, you will learn the terminology and rules of the sport, determine your dominant eye and learn the correct stance to effectively hit flying targets. You may bring a shotgun of your own in .12 or .20 gauge, or use one provided for you. **M**

Animal Tracking and Trail Cameras – Learn the basic technique of tracking animals while visiting feeding stations throughout camp. Learn how trail cameras can aid in tracking those animals. **M**

Annie Get Your Gun – Understanding the different types of guns can make you a better hunter and further your understanding of our hunting heritage. Try your hands at handguns, shotguns, rifles, black powder guns, etc. Take your shot and see if you can become a sharpshooter like Annie Oakley. **M**

Archery – Intermediate/Advanced – Experienced archers, bring your own bow (no crossbows allowed). Instructors will cover safety, bow hunting heritage and techniques using a blind or tree stand. Learn how to choose the right harness equipment for you. **M**

Archery – Basic – You will learn how to pull back a bow, aim and hit the target! Learn about bow basics, safety, shopping for a bow and the differences between target shooting vs. hunting. Use our bows or bring your own from home. This will be at an outdoor range on-site. **M**

ATV – Session A & C only are certification classes with prerequisite online work to be completed before the event. This nationally-certified hands-on training experience valued at \$150 teaches you how to operate an ATV safely and responsibly. At the end of the class, you'll not only get to take a ride around the camp with the class, but also gain your ATV certification. ATVs and safety gear will be provided. Bring your own helmet if you prefer. Long pants and over-the-ankle shoes/boots are required. Class size is small, so sign up early. **S**

Basket Making – Learn the technique of basket weaving. In this class you'll make a Cape Cod blueberry basket. The basket will measure 6" wide x 7" tall with a shaker-style square bottom with a carved and notched oak handle. You'll love learning this centuries-old technique! **E**

Beginning Fly Fishing Skills – You'll learn the basics of fly fishing: lines, leaders, reels, and flies. You'll get to practice casting and learn about fish habitat as well as follow-up opportunities for fishing. No fishing license required; gear and instructional materials provided. **E**

Beginning Spinfishing Skills – You'll learn to cast, tie knots and select lures and baits for various spinning gear. You'll learn about basic fish habitat and what fish you can catch in Wisconsin, as well as follow-up opportunities for fishing. No fishing license required; gear and instructional materials provided. **E**

Bowfishing – Learn important information about the technique and heritage of bowfishing. Discuss equipment, regulations, locations and anything bowfishing related, and try your hand at it! **M**

Canoe – Session A & B – Enjoy a fun-filled day of paddling down the Kickapoo River. This all-day canoe trip will allow you to enjoy nature at its best with some stops along the way and lunch riverside at a park. **S**

CCL – Conceal Carry License – Learn when, where and how a CCL can be used. The class meets the requirements needed to obtain a Concealed Carry Permit in the state of Wisconsin. Outside our weekend, it's normally a \$99 value and allows you to carry in 30 other states! What a deal! Upon completion of the class, you'll be able to send in for permit. Learn about and see suggestions on garments, holsters and bags for your concealed carry gun. *No shooting will be done in this class – see handgun class. **E**

Dream Catchers and Crystal Wisdom – Elder, Jackie Redwoman, will tell you the tale of the origin of dream catchers. You will weave all of nature's gifts into your own dream catcher along with some wisdom and a brief interpretation of your finished product. Who's up for a great night's sleep? **E**

Fall & Festive Craft – Watch out fall! You'll create a decoupage festive leaf bowl just in time for the season. You'll be able to whip up an additional surprise festive seasonal craft. **E**

Field to Fork – Join hunting's natural-foods movement. In this class we will have hands-on learning with how to properly harvest your hunting trophy while in the field so you can bring it back to the kitchen for storage or consumption. Disclaimer: Harvested game animals will be used in this class. **S**

Handguns – Try your hand at .22 and high powered handguns! Shoot up a variety of targets and learn the basics of firearm safety, ammunition and good shooting form. **M**

Low Ropes Course Adventure – Get ready for adventure. In this class you'll learn how to maneuver our low ropes course using team work and determination. Prepare for the possibility to get dirty; old long pants/shoes are recommended. **S**

Native American Expedition – Take a journey back in time as you learn more about the Woodland Indian Tribe that once moved through the valley where Living Waters now stands. Explore a small cave that has petroglyphs that give us clues to the culture of these ancient people. Have your walking shoes on ready for a trip back in time. **M**

Outdoor Cooking – Join Chef Terry for this hands on-class using Dutch ovens and cast iron skillets! If you like to cook, this class is for you! Bring your appetite and come eager to chop, mix and measure! Saturday: appetizers, a main dish and dessert! Sunday features breakfast dishes. Come hungry, leave satisfied! **E**

Pheasants – Hatch to Harvest – Enjoy a tour of a local pheasant-raising facility. See what goes into creating a hunting preserve and why they are a valued part of the Wisconsin economy. Learn how to raise pheasant chicks to adult birds and how to hunt them, including bird dog training. **E**

Rock Wall/Zip Line Adventure – Conquer your fear of heights with this rock wall and zip line adventure. Camp professionals will help you gear up and tear down any fears while you scale their mountainous rock wall. Once at the top, you'll take the plunge on the zip line. Are you up for the challenge? Long/capri pants preferred. **S**

Stained Glass Making – Welcome to a beginners stained glass class. We'll teach you color, following patterns, copper foiling, and soldering. You'll create 1-2 small one-of-a-kind personalized projects using glass nuggets. **E**

Stick Lamps – This class will have you using elements of nature to select, construct and assemble either a table-style lamp or a floor model. Bring along a favorite rustic or antique lampshade as well as small keepsakes or craft items to embellish and personalize your lamp. **M**

Survival Hike – Take a hike in confidence. This will be an "active" session with lots of hands-on learning to make shelter and fire, look for water and find food in the woods. **S**

Trapshooting – Beginner – This is for the beginner who wants to learn how to handle a shotgun, shoot clay pigeons and have fun doing it! From safety, form and equipment, you will receive one-on-one help by the instructor to get the hang of this popular sport. Bring your own shotgun or one will be available. **M**

Trout Fishing – Local streams are some of the most productive trout water in the Midwest! With a brief review of basics, we'll divide into groups and visit a local stream with experienced mentors. Lucky anglers might even catch a few trophies to take home for dinner. You'll need basic angling skills or to have taken Beginning Spinfishing or Beginning Fly Fishing to enroll in this course. WI fishing license with inland trout stamp required. Gear and instruction materials provided. **M**

Unplug – Unwind – This is a class about "Me Time" – you're the instructor AND the student! When you choose this activity, you will have the 3-hour timeslot to yourself! Go for a walk... read a book... paint your toenails... take a nap! It's your class to create! See what nature and being outdoors has to offer you! **E**

Wild Edibles of Wisconsin – Do you want to learn more about the fabulous wild edibles Wisconsin has to offer? In this class you'll learn how to harvest some of the wild edibles like dandelion, elderberries, black berries, milkweed, etc. You'll also hear suggestions for storing, preparing for consumption and when the best harvest times are. **E**

Wind Chimes – Chime right in! Come and create your own personalized wind chime! The tones from this 3-foot-tall music maker will bring peace and tranquility to your outdoor space. Everything you need to make this beautiful wind chime is provided. Feel free to bring your own creativity for decorating, including personalized tranquil or garden trinkets you'd like to attach to it. **E**

Wood Carving Techniques – Natural creations from a block of wood! Learn the basic cuts used in woodcarving. You be able to take home your cute carving if you can make the cut! **E**

Wood Working – Do you love the sounds of birds chirping? In this class you'll choose your project – either a bird feeder or bird house. You'll have the chance to use power tools for precision cuts then construct and assemble a beautiful bird creation to take home. **M**
